I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have not found any where in my state where natural progesterone is compounded for my health needs. It would be nearly impossible for me to function in daily living without it. This can be substantiated by my doctor upon request. Should there be a restriction my husband & I would pursue the need for this medication, along with the many others who have come to benefit greatly from it.
